

## **Love Power Equipment and Rentals Expands Inventory to Meet Growing Demand from Tractor Dealers**

*June 22, 2026*

CHIEFLAND, FL - June 22, 2026 - PRESSADVANTAGE -

Love Power Equipment and Rentals, a Chiefland-based power equipment dealership, has expanded its inventory and service offerings to address increasing demand from agricultural operators, contractors, and property owners across North Central Florida. The dealership now maintains comprehensive stock of tractors, construction equipment, commercial mowers, and utility vehicles to serve diverse customer needs throughout the region.

The expansion reflects broader market trends as tractor dealers in Florida adapt to evolving customer requirements across multiple industries. Love Power Equipment and Rentals has positioned itself to serve customers from Gainesville and surrounding areas with an extensive selection of new and pre-owned equipment from leading manufacturers including New Holland AG, New Holland CE, Bad Boy Mowers, LiuGong, and Suzuki.

"The equipment needs of Florida businesses and property owners have become increasingly diverse," said Chad Halleen, owner of Love Power Equipment and Rentals. "Agricultural operators need reliable tractors, contractors require heavy machinery, and landscaping professionals depend on commercial-grade mowers.

By expanding our inventory across all these categories, we can better serve our community with the right equipment solutions for their specific applications."

The dealership maintains extensive inventory of construction equipment, including skid steers for sale, to support the region's growing construction and development projects. These compact, versatile machines have become essential tools for contractors working on residential and commercial projects throughout North Central Florida. The dealership also stocks excavators, loaders, and other heavy equipment to meet varying project requirements.

Beyond traditional farm and construction equipment, Love Power Equipment and Rentals has expanded into powersports and utility terrain vehicles. These additions serve outdoor enthusiasts and property owners who require versatile transportation solutions for recreational and work applications. The dealership's commercial mower selection addresses the needs of landscaping professionals and property maintenance companies managing large acreage.

The company's rental division provides additional flexibility for customers who need equipment for short-term projects or seasonal work. The rental inventory includes commercial power equipment and heavy machinery suitable for construction, agricultural, and landscaping applications. This service allows businesses to access specialized equipment without the capital investment of purchasing.

"Equipment reliability and uptime are critical for our customers' success," noted Halleen. "That's why we've invested heavily in our parts and service departments. We maintain parts inventory for most makes and models and offer custom hydraulic hose fabrication. Our service technicians are factory-trained to handle repairs and maintenance across our entire equipment lineup."

The dealership also offers flexible financing options to help customers acquire needed equipment. Pre-qualification services and online payment calculators help buyers understand their financing options before making purchase decisions.

Love Power Equipment and Rentals operates from its Chiefland location, serving agricultural operators, contractors, landscapers, and property owners throughout North Central Florida. The dealership specializes in new and pre-owned power equipment sales, rentals, parts, and service across multiple equipment categories including tractors, construction machinery, commercial mowers, and utility vehicles.
