

USA Cabinet Store Marks 15 Years with Dedicated Designer Commitment to Kitchen and Bath Remodeling in Loudoun County

June 30, 2026

Chantilly, Virginia - June 30, 2026 - PRESSADVANTAGE -

USA Cabinet Store marks its 15th year of operations by formalizing a dedicated designer commitment to Loudoun County homeowners seeking kitchen and bathroom renovations. The cabinet store with remodeling services assigns one designer to each project from initial consultation through final installation, addressing the traditional disconnect between cabinet retailers and contractors.

The company, which has completed more than 1,000 kitchen and bath projects since its 2011 founding, selected Loudoun County for this focused service expansion based on market demographics. According to U.S. Census Bureau data, Loudoun County maintains the highest median household income in Virginia at approximately \$181,800, while Redfin reports the county's median home sale price at approximately \$751,000 as of March 2026.

"Economic indicators show that Loudoun County homeowners frequently undertake extensive remodeling

projects, and they consistently express a preference for a single point of accountability throughout their renovation," said Emin Halac, CEO of USA Cabinet Store. "Our dedicated designer model eliminates the coordination challenges that typically arise when homeowners work with separate cabinet retailers and contractors."

Unlike standard industry practices where clients are often transferred between sales representatives and independent contractors, the dedicated designer approach assigns one professional to oversee every aspect of a project. This covers everything from design consultation through product selection and installation oversight. This model streamlines communication and ensures consistency throughout the renovation process, which is particularly important for multi-stage bathroom remodeling projects that require the coordination of multiple trades and finishes.

USA Cabinet Store's Chantilly showroom serves as the hub for Loudoun County projects, providing residents of Leesburg, Ashburn, Lansdowne, and Sterling access to extensive cabinet displays and design consultations. The company recently received the national NKBA Innovative Showroom Award at KBIS 2026, recognizing excellence in showroom design and customer experience across the country.

The company's expansion of dedicated services to Loudoun County builds on established expertise in complete kitchen transformations and bathroom renovations. Projects typically encompass custom cabinet installations, countertop selection, tile work, and fixture coordination, with the assigned designer maintaining oversight throughout each phase.

"Reaching our 15-year milestone reflects the experience gained from over 1,000 completed projects, allowing us to implement highly structured processes for Loudoun County homeowners," added Halac. "Having one designer accountable from start to finish transforms what can be a stressful renovation into a managed, predictable experience."

The timing aligns with continued growth in Loudoun County's housing market and increased homeowner investment in property improvements. The dedicated designer model particularly appeals to professionals with demanding schedules who value streamlined project management and clear accountability.

USA Cabinet Store operates 16 showroom locations across Virginia, Maryland, North Carolina, Texas, New Jersey, Florida, and Tennessee. The company specializes in turn key kitchen and bath remodeling, offering custom cabinetry, countertops, tiles, fixtures, and complete design services. Since 2011, the company has built its reputation on combining quality products with professional installation and project management, serving more than 1,000 satisfied customers throughout its market areas.
