

ClearWave Dental & Aesthetics Marks More Than 25 Years of Family Dentistry in Coral Springs

June 22, 2026

Coral Springs, Florida - June 22, 2026 - PRESSADVANTAGE -

ClearWave Dental & Aesthetics, a full-service family and general dentistry practice at 8894 Royal Palm Blvd in Coral Springs, has been caring for Broward County families since 1998. More than two and a half decades after opening its doors, the practice continues to serve patients of every age across the northwest Broward community, from a child's first dental visit to comprehensive care for adults and seniors.

The practice is led by Dr. Tadeu Szpoganicz, DMD, FICOI, a graduate of the Boston University Goldman School of Dental Medicine. Dr. Szpoganicz is a Fellow of the International Congress of Oral Implantologists and a Fellow of the International College of Dentists, distinctions reflecting his ongoing commitment to advanced training and professional standards in dentistry.

ClearWave Dental & Aesthetics offers a broad range of dental care under one roof, including preventive services such as cleanings and exams, restorative treatments including fillings, crowns, and bridges, pediatric dentistry for younger patients, cosmetic dentistry, and oral surgery. This breadth allows families to coordinate

much of their dental care in a single, familiar location rather than traveling between multiple offices.

Patient comfort is a central focus of the practice. ClearWave offers sedation options, including oral sedation and nitrous oxide, intended to help patients who experience anxiety feel more at ease during treatment. The team works to create a calm environment for nervous patients and children alike.

"For more than twenty-five years, our focus has been simple: take care of Coral Springs families the way we would want our own families cared for," said Dr. Tadeu Szpoganicz, founder of ClearWave Dental & Aesthetics. "Everything from our technology to our sedation options exists to make that care comfortable and accessible."

The practice has invested in modern dental technology to support accurate diagnosis and treatment planning. Tools in use include iTero digital scanning, digital X-rays, and intraoral cameras, which allow the dental team to capture detailed views of a patient's oral health and share that information with patients during their visits.

ClearWave Dental & Aesthetics welcomes families from across the region, including Coral Springs, Parkland, Coconut Creek, Margate, Tamarac, and North Lauderdale. The practice accepts most major PPO dental insurance plans, and CareCredit financing is available to help patients manage the cost of care.

"We see patients of every age, from a child's first checkup to complex restorative work," added Dr. Szpoganicz. "Being part of this community since 1998 means we get to care for families across generations, and that continuity is something we take seriously."

As the practice looks ahead, its team remains focused on the same priorities that have guided it since 1998: consistent, comfortable, family-centered dental care for the Coral Springs community. Patients and families seeking a general and family dentist in the area can learn more about the practice, its team, and its services at the ClearWave Dental & Aesthetics website.
