

Treasure Valley Bounce N Slide Expands Bounce House Rental Services Across Idaho Communities

June 24, 2026

MIDDLETON, ID - June 24, 2026 - PRESSADVANTAGE -

Treasure Valley Bounce N Slide has expanded its party rental services to encompass a wider geographic area across Idaho, now delivering inflatable entertainment and event equipment throughout Boise, Nampa, Meridian, Caldwell, Eagle, Star, and extending into eastern Oregon. The Middleton-based company addresses the growing demand for accessible party rental services in both rural and suburban communities across the region.

The expansion enables families and organizations across the Treasure Valley to access professional-grade bounce houses, water slides, obstacle courses, and event equipment without the typical limitations of distance-based service areas. The company maintains its commitment to delivering clean, sanitized equipment to every location, regardless of the distance from its Middleton headquarters.

"We recognized that many communities in the outer areas of the Treasure Valley had limited access to quality party rental services," said Michael Halatyn, owner of Treasure Valley Bounce N Slide. "By expanding our delivery radius, we're ensuring that schools, churches, and families throughout the region can create memorable events without compromising on safety or equipment quality."

The company's inventory includes traditional bounce houses ranging from 10-foot castle designs to 15-foot structures, combination units that merge bouncing areas with slides, and water slides extending up to 32 feet. Additional offerings include obstacle courses up to 70 feet in length, interactive games such as axe throwing and soccer darts, and classic backyard entertainment options including giant Jenga and Connect 4.

Event planners and families organizing celebrations can also access essential support equipment including tables, chairs, and tents, along with concession machines for snow cones, popcorn, and cotton candy. The comprehensive inventory allows customers to source all party rental needs from a single provider, simplifying the planning process for birthday parties, school events, church gatherings, and community celebrations.

The expanded service area particularly benefits schools and churches in smaller communities that previously faced challenges securing quality rental equipment for their events. The company offers special pricing structures for educational institutions, religious organizations, and community festivals, making professional-grade entertainment equipment more accessible for nonprofit and community-focused events.

"Safety remains our primary focus as we serve this expanded territory," added Halatyn. "Every piece of equipment undergoes thorough cleaning and inspection before each delivery, and we maintain the same high standards whether we're delivering to downtown Boise or a rural community in eastern Oregon."

Treasure Valley Bounce N Slide specializes in providing inflatable entertainment and party rental equipment for events throughout Idaho's Treasure Valley region. Based in Middleton, the company maintains an extensive inventory of bounce houses, water slides, obstacle courses, interactive games, and event support equipment. The company serves residential customers, schools, churches, and community organizations with a focus on safety, cleanliness, and reliable delivery service across an expanded geographic area that includes Boise, Nampa, Meridian, Caldwell, Eagle, Star, and surrounding communities.
