

S and Z Property Brothers Announces Expanded Direct Purchase Program for Central Illinois Homeowners

June 29, 2026

SPRINGFIELD, IL - June 29, 2026 -
S and Z Property Brothers, a Springfield-based real estate investment company, announced today the expansion of its direct home purchase program across central Illinois, addressing increased demand from property owners seeking alternatives to traditional real estate transactions.

The expanded program comes as housing market data shows extended listing periods averaging 65 days in central Illinois communities, with many properties requiring substantial repairs before sale. The company's direct purchase model eliminates typical transaction requirements including repairs, staging, and commission payments.

"Market conditions have created situations where homeowners need alternatives to conventional selling methods," said Tim Zinselmeier, spokesperson for S and Z Property Brothers. "Our expanded program addresses specific challenges in the current real estate environment, particularly for properties requiring significant updates or in situations demanding rapid resolution."

The company's operations now encompass additional communities throughout central Illinois. S and Z Property Brothers we buy houses in Chatham IL, represents one market where the program has been implemented, providing property owners with direct purchase options regardless of property condition.

Recent housing statistics from the Illinois Association of Realtors indicate that 23 percent of traditional home sales experience delays due to financing contingencies, while 18 percent encounter inspection-related complications. Direct purchase programs bypass these potential obstacles through cash transactions that can close within predetermined timeframes.

The expansion addresses various property situations including estate settlements, divorce proceedings, and properties with deferred maintenance. Each transaction follows a standardized evaluation process that provides property owners with purchase offers based on current market conditions and property specifications.

Industry analysis shows growing demand for alternative real estate transaction models. According to real estate market researchers, direct purchase programs have increased by 42 percent nationally over the past three years, reflecting changing seller preferences and market dynamics.

S and Z Property Brothers' program structure differs from traditional real estate processes by eliminating third-party dependencies. While conventional transactions involve multiple parties including agents, inspectors, and lenders, the direct purchase model streamlines the process through single-entity transactions.

The company reports processing times averaging 7 to 14 days from initial contact to closing, compared to traditional market averages of 30 to 60 days. This timeframe reduction addresses specific needs in situations requiring expedited property transfers.

We buy houses programs like this one have become increasingly relevant in markets experiencing economic transitions or demographic shifts. Central Illinois communities have seen varied market conditions, with some areas experiencing longer listing periods and others facing inventory challenges.

The expanded program maintains standardized procedures across all service areas, ensuring consistent transaction processes regardless of location. Property evaluations consider current market data, comparable sales, and property-specific factors to determine purchase offers.

S and Z Property Brothers operates throughout central Illinois, specializing in direct residential property purchases. The company provides cash payment options for properties in various conditions, serving homeowners who require alternatives to traditional real estate transactions. Founded in Springfield, the company has expanded its service area to meet growing demand for direct purchase options in the regional real estate market.
