May 02, 2016 - PRESSADVANTAGE -

Restoration 1 of Portland, based in Tigard, Oregon, has announced that they recently received reviews for water damage repairs in the Portland area. The company added that the latest reviews rated them the best in the area for the services that they offer.

Ty Hines with Restoration 1 of Portland commented on the reviews, stating, "Our Google Plus page is overflowing with praise, and we couldn't be more proud. I mean, we know that we do everything we can do make our customers' experiences positive. We're glad that our customers see this as well."

The company offers emergency restoration and fire and water damage services. They state that because they are available 24 hours a day and 7 days a week, customers feel that they are more reliable than other companies that just handle customer service calls when they are technically open.

One of the reviews, provided in the past week from a Portland customer states, "They restored our flooded basement just as they stated they would, and it looks pretty amazing now." The customer states that the services are, "well worth the money we paid."

Restoration 1 also has a Facebook fan page for the company, where customers can also see reviews from other customers, and connect with the company to learn of any changes, new promotions, and newly launched services. Hines states that this is yet another way that they go out of their way to ensure customer satisfaction, and that the social media page helps them to stay abreast of what their customers want and need, something else that helps them to raise their reviews and ensure that their customers feel they are the best in the region.

Restoration 1 of Portland offers a wide range of services including those for commercial and residential customers. They help to repair damage caused by fire, flooding, mold, and smoke and offer services in Portland and surrounding areas. The company states that their well trained and educated professionals are the main reason customers view them as the best as what they do, and the reason for their recent influx of five star reviews across various websites.
