

Wymore Deck & Fence Marks a Decade of Custom Deck Building

June 25, 2026

OMAHA, NE - June 25, 2026 -

Wymore Deck & Fence, a family-owned deck building and outdoor living contractor, announced that it has reached ten years in business, a milestone the company marks alongside more than 100 completed projects across the Omaha metro area. The anniversary caps a decade of growth from a deck-focused start into a contractor that now builds complete outdoor living spaces.

Founded and owned by Levi Wymore, the company began with a focus on custom residential decks and has expanded its services while keeping deck construction at the center of its work. The business has remained family-owned throughout its history, with Wymore overseeing projects directly. Operating from 3610 N 163rd Plaza, Suite 212, it serves Omaha and the surrounding communities, including Bellevue, Council Bluffs, Papillion, La Vista, and Bennington.

"Reaching ten years reflects the relationships we have built with homeowners across the Omaha area," said Levi Wymore, owner of Wymore Deck & Fence. "Our focus has stayed on building outdoor spaces that hold up over time, and that has not changed since the first project."

Over the past decade, the company has built custom residential decks in a range of configurations, from multi-level and raised decks to freestanding, screened, and covered designs. Each project moves through deck design and consultation, 3D modeling, permit acquisition, foundation work, framing, and construction, along with rebuilds and replacements of aging structures. The company introduced 3D design models so homeowners can review a finished layout before construction begins.

The contractor works with a range of decking materials, including wood and softwoods such as cedar and redwood, exotic hardwoods such as Ipe, Tigerwood, and Cumaru, composite, and PVC. Beneath the surface, it builds with wood, steel, aluminum, and composite framing, supported by helical pier, diamond pier, and concrete footings selected for the freeze and thaw cycles common to Nebraska.

As demand grew, Wymore Deck & Fence extended its deck expertise into the rest of the backyard. The company designs and builds pergolas, cabanas, pavilions, gazebos, porches, sunrooms, three-season rooms, patios, outdoor kitchens, and firepits. It also installs custom fencing in privacy, security, wood, composite, vinyl, aluminum, and ornamental iron styles, along with gates, gate operators, access control systems, and retaining walls.

"Decks have always been the center of what we do, and the rest of the backyard grew naturally from that," Wymore said. "Homeowners wanted one team that could plan and build the whole space, and that is the direction the company has taken."

The company works with manufacturers such as TimberTech by Azek, Trex, Fiberon, and Deckorators for decking and railing products, Fortress Building Products for framing, and Azenco for louvered structures. Deck railing options include composite, glass, aluminum, steel, and cable systems, and the company installs deck lighting and underdeck drainage systems that create dry, usable space below elevated decks.

Wymore Deck & Fence is licensed, bonded, and insured under Nebraska contractor license LIC-2501871, and assigns trained, certified technicians to its projects. The company backs its work with a workmanship warranty, including a lifetime craftsmanship warranty on qualifying low-maintenance projects.

As it enters its second decade, the company plans to continue serving residential homeowners across the Omaha metro area with custom decks and outdoor living projects. More information is available at www.wymoredeckandfence.com.
