

Memphis Bearings Store Celebrates 8 Years In Business

May 16, 2016

May 16, 2016 - PRESSADVANTAGE -

The Big Bearing Store, based in Memphis, TN, is celebrating their eighth year in business. During this time, they have built up a significant customer database and they have set themselves apart as the go-to source with regards to bearings in Memphis and beyond. Full details about their products and services are available on their website, <https://www.thebigbearingstore.com/>.

Kevin Carnell, President of the Big Bearing Store and Carnell Sales, Inc., says: "It has been a fantastic eight years. We have had our ups and downs, as is normal with any store, but thanks to the hard work and dedication of our team, and the continued trust and support of our customers, we have made it to this point. We look forward to many more years in business."

During the eight years of business, the store has set itself apart through its mission of becoming the ball bearing capital of the internet. They have built up an impressive stock list of products and essentially have all the different bearings in their inventory. Should someone have a requirement for something that isn't in stock, they will endeavor to find it.

The Big Bearing Store has built up some 14,000 square feet of warehouse, in which they stock 95% of all bearings and bearings-related products.

The store also encourages everyone to like their Facebook page on <https://www.facebook.com/thebigbearingstore/>. Since this year is a year of celebration, they may launch a number of special events, which will be highlighted there. The Facebook page is also an opportunity for them to share industry related news, and for customers to contact them with any questions, comments, or opinions.

"We love to hear from our customers, and one of the best ways to contact us is through our Facebook page," adds Kevin Carnell. "We have tried to create a community and invite everyone to join it."
