Jucebox Handling Complete Website Design For Several Companies In Roseville CA

May 29, 2016

May 29, 2016 -

Jucebox Local Marketing Partners, an internet marketing company in Roseville, CA, has announced that they will soon be unveiling a number of new websites in May 2016. These websites have been designed for a number of different clients, all based in Roseville, CA, and the surrounding area. Full details about the work that the company does can be obtained through http://juceboxlocalmarketingpartners.com/services-we-offer/web-design/.

Rebekah Richards, founder of Jucebox Local Marketing Partners, says: "It has been a busy few months. We have completed work for a wealth of different companies in the Roseville area, each with different briefs, needs, and expectations. We feel that we have met those briefs in full and are excited to unveil the results over the course of this month."

One of the new websites that will be unveiled is for Class Act Plumbing, a well established plumbing and HVAC company in Rocklin, CA. They needed a modernized, mobile responsive website that makes it easy to call them and highlights their experience and client satisfaction.

A second client is More Choices Insurance Agency. They also needed to update to a mobile responsive website design. They were seeking a website that looked clean and professional, was simple for people to maneuver through, and conveyed a professional and memorable image.

Furthermore, Jucebox Local Marketing Partners has almost completed the design for JKB Insurance Services. JKB needed a website revamp in order to make their website mobile responsive and create a more modern and cutting edge image for their company.

Also in the works is a website for a new cleaning company, Aloha Cleaning Services and updated websites for Frei Real Estate Services, and Alley Cat Promos.

Those who have worked with Jucebox in the past have been very positive about the results that they have experienced. "Rebekah went the extra mile when helping me with my online presence," says Eric W. on the company's website. "I recently moved my office from Rocklin to Roseville. In doing this I lost virtually all of my web presence which I had spent almost 8 years building. She helped me get my new website listed everywhere (which I had spent hours trying to do but had failed dismally) but she also did some research about how I listed my new site and with a couple of tweaks I was back on the radar and from number 26 to number 3 on Yelp almost overnight which has driven in a ton of business that I was missing out on. She is honest and very ethical and I don't hesitate recommending her to anyone."
