

Era Pickleball Announces Expanded Membership Options and Enhanced Programs for Houston Area Players

July 07, 2026

The Woodlands, Texas - July 07, 2026 -
Era Pickleball, the premier indoor pickleball facility serving The Woodlands and greater Houston area, announced today significant updates to its membership structure and program offerings designed to accommodate the growing demand for pickleball in the region. The facility, which features 13 indoor courts and over 250 hours of open play weekly, has restructured its services to provide more flexible options for players at every skill level.

The expanded programming addresses the rapid growth of pickleball participation across TX, where the sport has seen unprecedented adoption among players of all ages. ERA Pickleball has introduced new membership tiers that include enhanced access to leagues, tournaments, and specialized instruction programs, reflecting the diverse needs of the pickleball community.

"The enthusiasm for Pickleball in The Woodlands, TX has exceeded our expectations, and these updates

ensure we can serve both recreational players and those seeking competitive opportunities," said Christian Tejada, Director of Operations at Era Pickleball. "Our goal is to create an inclusive environment where players can develop their skills, compete at their desired level, and build lasting connections within our community."

The facility's comprehensive offerings now include expanded open play hours, structured leagues for various skill levels, private lessons with certified instructors, group clinics, specialized drills, and a dedicated kids academy. The tournament schedule has also been enhanced to provide more competitive opportunities throughout the year. Corporate event packages have been refined to offer team-building experiences that leverage the social and active nature of pickleball.

A key component of the service improvements is the upgraded booking system accessible through the Era Pickleball Website, which streamlines court reservations and program registration. Members can easily schedule games, sign up for clinics, and register for tournaments through the platform, eliminating wait times and simplifying the process of organizing matches with friends.

The facility has also strengthened its instruction programs, recognizing that proper training accelerates skill development and enhances enjoyment of the game. Private lessons offer personalized attention for rapid improvement, while group clinics provide cost-effective training in a social setting. The kids academy introduces younger players to the sport through age-appropriate instruction and activities.

Beyond the physical improvements and program expansions, Era Pickleball emphasizes its role as a community hub where players from diverse backgrounds connect through their shared passion for the sport. The facility hosts regular social events and mixer tournaments that foster friendships extending beyond the court.

Era Pickleball operates as the leading indoor pickleball facility in The Woodlands area, providing year-round climate-controlled playing conditions. The facility serves players throughout the greater Houston region with comprehensive pickleball programming, from beginner instruction to advanced competitive play. With 13 dedicated indoor courts and a commitment to growing the sport, Era Pickleball continues to expand its offerings to meet the evolving needs of the pickleball community.
