

Cosmetic Surgery Center Now Offers Breast Augmentation In Baltimore, MD

May 05, 2016

May 05, 2016 - PRESSADVANTAGE -

Baltimore Plastic and Cosmetic Surgery Center, in Maryland, is proud to announce that they now offer breast augmentation services. As one of the most trusted Baltimore cosmetic surgery clinics, they are committed to always improving their services and providing patients with better care, so the breast augmentation treatment was a logical next step. Those who have had the procedure completed have been very happy with the results.

Dr. Jeffrey Schreiber from the Baltimore Plastic and Cosmetic Surgery Center says: "The breast augmentation is a very popular procedure, but we wanted to make sure that our specialists have all been properly trained before offering it. Now that they have, we are welcoming patients through our doors for this procedure, as well as for the range of other procedures that we offer."

The Baltimore plastic surgeon is committed to delivering the highest possible care. Dr. Schreiber is fully registered, certified, and licensed to practice, and he is committed to his continuous professional

development, going above and beyond the legal requirements of maintaining training, skills, and knowledge. The clinic's goal is to make each of their patients look as young as they actually feel. To achieve this, they offer a full range of plastic surgery procedures.

Those who have had treatment through the clinic have been very happy with the results. "As a physician myself, I understand how difficult it is to put together a great team that provides excellent care from the first phone call to your post operative office visit," says Ed S. on the clinic's Google+ page. "Dr. Schreiber and his staff provided exemplary service. Would recommend him to any of my own patients and family."

The clinic aims to offer the best breast augmentation Baltimore has seen. They are committed to excellence of care and their reputation truly speaks for itself. For Dr. Schreiber, every person is a work of art and beauty, which just needs to be brought out. His treatment options aim to achieve that, be that through breast augmentation, tummy tuck, breast lift, or any other cosmetic procedures. The clinic offers a full scope of cosmetic procedures to enhance a person's lifestyle.
