

Geddie Tree & Land Services Announces Enhanced Storm Response Capabilities for Tree Removal Season

July 13, 2026

ELLISVILLE, MS - July 13, 2026 -

Geddie Tree & Land Services, a family-owned tree care company serving southern Mississippi, announces expanded storm response capabilities as the region enters its peak severe weather season. The company has enhanced its emergency response protocols and equipment resources to better serve property owners throughout Hattiesburg, Petal, Laurel, Ellisville, Collins, Sumrall, Lumberton, Bay Springs, Waynesboro, New Augusta, and Richton.

With over 26 years of experience in the tree care industry, the company has developed comprehensive emergency response procedures that enable rapid deployment of crews and equipment following severe weather events. The enhanced capabilities include additional specialized equipment for storm damage cleanup and expanded crew availability for emergency tree removal services in Hattiesburg and surrounding communities.

"Storm damage can pose immediate safety risks to families and businesses, which is why we have invested

in expanding our emergency response capabilities," said Jay Geddie, co-owner of Geddie Tree & Land Services. "Our teams are trained to assess hazardous situations quickly and provide the necessary tree removal and cleanup services to restore safety and normalcy to affected properties."

The company's tree removal services in Hattiesburg, MS maintains a fleet of specialized vehicles and equipment specifically designed for emergency tree removal and land clearing operations. Their certified arborist on staff provides expert assessment of storm-damaged trees, determining which can be saved through proper pruning and which require complete removal for safety reasons. This professional evaluation helps property owners make informed decisions about their landscape following severe weather events.

Beyond emergency response, local tree services provided by the company include routine tree pruning, stump grinding, disease identification, and insect control. The company serves both residential and commercial clients throughout MS, offering comprehensive tree care solutions that range from preventive maintenance to complete land clearing for new construction projects.

"Regular tree maintenance and professional pruning can significantly reduce the risk of storm damage," added Geddie. "We encourage property owners to have their trees professionally assessed before severe weather season to identify potential hazards and address them proactively."

The company's approach to tree care combines traditional arboricultural practices with modern equipment and techniques. Their services include tree takedown and removal, stump and root grinding, brush removal, site preparation, and bush hogging. Each service is performed by trained professionals who prioritize safety and property protection throughout the process.

Geddie Tree & Land Services operates as a licensed and insured tree care provider, offering free estimates for all projects regardless of size. The company's commitment to competitive pricing and transparent service agreements ensures clients receive professional tree care without unexpected fees or charges.

Established as a family-owned business, Geddie Tree & Land Services has built its reputation on reliable service delivery and professional expertise in tree care and land management. The company continues to serve the greater Hattiesburg area with comprehensive tree and land services designed to meet the diverse needs of Mississippi property owners.
