

Toronto Luxury Black Car Service Caddy Chauffeured Services Expands Corporate Travel

June 30, 2026

June 30, 2026 -
The GTA chauffeur company grows its executive black car program for business travelers, roadshows, and airport runs.

Caddy Chauffeured Services, a luxury black car service based in Toronto, ON, is expanding its corporate travel program for executives and businesses across the Greater Toronto Area. The company is adding dedicated account support, priority booking, and a larger executive fleet to handle daily business travel, multi-stop roadshows, conference movement, and airport transfers for its corporate clients.

The expanded program is built for companies that book recurring ground transportation rather than one-off rides. Caddy Chauffeured Services now offers corporate accounts with centralized billing, named account managers, priority booking windows, and guaranteed vehicle availability during peak business hours. Each account runs through a single point of contact, with consolidated monthly invoicing and ride-level reporting that finance and travel teams can use for expense tracking and policy compliance. Details on the service are available through Caddy Chauffeured Services.

The company runs a fleet of more than 85 vehicles, from executive sedans and SUVs for individual travelers to passenger vans, mini coaches, and motor coaches for larger groups and full-day event logistics. Chauffeurs are screened, background checked, and trained for the standards of business travel, including discreet conduct, meet-and-greet service at arrivals, and route planning that accounts for traffic and meeting schedules. Corporate clients frequently book runs between the downtown Financial District, head offices in Mississauga, ON, and Toronto Pearson International Airport. Airport pickups include real-time flight tracking and complimentary wait time through the Caddy Chauffeured airport transfer service, so a delayed flight does not mean a missed pickup or a second booking.

Demand for executive car service in the GTA has climbed as more companies return to in-person meetings, client roadshows, and large conferences. Reliability, vehicle quality, and duty-of-care for traveling staff have become standard requirements in corporate travel policies, and ground transportation is increasingly handled by approved vendors rather than booked ad hoc. Caddy Chauffeured Services has been recognized as a leading corporate chauffeur provider in the region, Demand for executive car service in the GTA has grown as more companies return to in-person meetings and events. Caddy Chauffeured Services is expanding its corporate travel program to meet that demand.

"Corporate clients judge us on the rides that go wrong for everyone else, the 6 a.m. airport pickup, the back-to-back board meetings, the flight that lands an hour late," said the CEO of Caddy Chauffeured Services. "Reliability is the entire product, and that is where the new program puts its focus. We would rather be early a thousand times than late once."

The expansion also lands ahead of a busy summer for Toronto, ON, as conferences, corporate events, and a heavier travel calendar bring business visitors into the city and its suburban office hubs. Beyond the downtown core, Caddy Chauffeured Services serves business travelers across Oakville, ON, and the wider GTA, with booking handled by phone or online and accounts set up directly with the company. The program is designed to scale with a client, from a single executive on a recurring weekly schedule to coordinated transportation for a visiting leadership team or an off-site event.

About Caddy Chauffeured Services

Caddy Chauffeured Services is a luxury black car and chauffeur company based in Toronto, ON, serving the Greater Toronto Area for more than 20 years.
