

Porter Ophthalmology Details LASIK Payment Options and Financing Plans for Patients in Raleigh, North Carolina

August 06, 2026

Raleigh, NC - August 06, 2026 -

Porter Ophthalmology, a LASIK and refractive surgery practice located in Raleigh, North Carolina, has published an educational resource addressing the payment and financing options available to patients considering laser vision correction. The practice, located at 5962 Six Forks Road in Raleigh, offers LASIK surgery, SMILE, PRK, EVO ICL, and Lens Replacement to patients throughout the Raleigh, Durham, Cary, and Chapel Hill areas. The article, "How Can I Pay for LASIK in Raleigh NC?", outlines the financing programs, tax-advantaged account eligibility, and payment options available to patients working through the financial side of scheduling vision correction.

For many patients in Raleigh considering laser vision correction, the upfront price of a procedure is one of the first considerations. Porter Ophthalmology partners with Alphaeon Credit, a medical financing company, to offer payment plans with terms ranging from 12 to 60 months, depending on credit approval and plan options selected. Financing through Alphaeon Credit includes a promotional 0% interest period of 12 months; patients who pay their full balance before the promotional window ends are not charged interest on the amount financed. Monthly payments on Alphaeon Credit plans are set at a minimum of 3% of the outstanding

balance. Patients considering LASIK surgery in Raleigh, Durham, or Cary can initiate the pre-qualification process online through Alphaeon Credit using a soft credit inquiry, which does not affect their credit score. Most medical financing programs require a minimum credit score in the range of 580 to 640 for approval, although outcomes depend on the full credit profile evaluated at the time of application.

Patients pursuing laser vision correction in Raleigh who have Health Savings Account (HSA) or Flexible Spending Account (FSA) balances may apply those funds toward the cost of their vision correction procedure. Per IRS guidelines, LASIK qualifies as an eligible medical expense under both HSA and FSA programs, allowing patients to direct pre-tax dollars toward the procedure. FSA funds are subject to annual expiration or a limited rollover period, while HSA balances accumulate without a fixed deadline, giving patients in Raleigh, Chapel Hill, and across the Triangle more flexibility in timing a vision correction procedure. Porter Ophthalmology accepts HSA and FSA payments for LASIK, SMILE, PRK, EVO ICL, and Lens Replacement procedures and provides the documentation patients need for reimbursement requests. Patients with both an HSA or FSA balance and Alphaeon Credit financing available may combine the two sources to reduce the total amount financed for vision correction surgery in Raleigh.

For patients seeking an estimate of monthly payment amounts, the article includes representative figures: a \$5,000 procedure financed at 0% interest over 24 months results in a monthly payment of approximately \$209, based on figures published on the practice's website. Patients who are denied by one financing company may still have options - they may qualify through an alternative lender, apply with a co-signer, draw on available HSA or FSA funds, or ask the practice about payment arrangements directly. A denial from one financing program does not affect eligibility with a separate lender. Porter Ophthalmology has provided vision correction services to patients in the Triangle since 1983, and the practice offers free vision correction consultations to patients from Raleigh, Durham, Cary, and Chapel Hill, giving patients a free-of-charge starting point for reviewing candidacy and payment options before making a decision.

"Price is one of the first questions patients bring to a consultation, and we want that conversation to open and clear as early as possible," said Dr. Isaac Porter, MD, fellowship-trained and double board-certified refractive surgeon and founder of Porter Ophthalmology. "Through our partnership with Alphaeon Credit, patients in Raleigh have access to 0% interest financing for 12 months, and we help patients plan how HSA and FSA funds can work alongside financing to bring the monthly number to a manageable amount."

Porter Ophthalmology is located at 5962 Six Forks Rd, Raleigh, NC 27609, and serves patients from Raleigh, Durham, Cary, and Chapel Hill. Patients traveling from across the Triangle to the Six Forks Road location can access driving directions at [this link](#). Free vision correction consultations are available at no charge and carry no obligation, providing patients a practical first step toward understanding their options before committing to a procedure.

For more information about LASIK payment and financing options at Porter Ophthalmology in Raleigh, the full resource "How Can I Pay for LASIK in Raleigh NC?" is available at the link above. The practice's location and profile can also be viewed at maps.app.goo.gl/9WpqKTd8Haa2dx59. Porter Ophthalmology provides LASIK, SMILE, PRK, EVO ICL, and Lens Replacement to patients throughout the Triangle, with financing resources and free evaluations available to help patients in Raleigh and surrounding communities plan for vision correction.
