

## **USA Cabinet Store Expands Dedicated Designer Model for Bathroom Remodeling in Annapolis, MD**

*July 08, 2026*

Annapolis, MD - July 08, 2026 -

USA Cabinet Store LLC has extended its dedicated regional designer model to bathroom remodeling projects at its Annapolis, Maryland showroom, giving homeowners a single designer who oversees every stage of the renovation, from initial consultation through project completion.

The expansion addresses a common challenge in Anne Arundel County: many townhomes, condos, and older properties near Historic Downtown and the waterfront have small, awkward-footprint bathrooms that require careful space planning and storage optimization. According to the National Kitchen & Bath Association's 2026 Bath Trends Report, 89% of surveyed industry professionals rank space allocation as a top priority in bath design, with efficient storage cited as a leading factor shaping projects nationwide. A single dedicated designer coordinates layout, cabinetry, fixtures, and installation scheduling throughout the project ? a workflow the company says is especially useful in space-constrained homes where every inch matters.

The service enhancement comes as the Annapolis housing market remains active. Zillow reports the average

home value in Annapolis at \$630,139, up 1.8 percent over the past year, with homes typically going to pending status in about nine days. Redfin data shows Anne Arundel County's median sale price reached \$502,000 in January 2026, a 6.1 percent year-over-year increase.

"The dedicated designer model changes how homeowners experience bathroom remodeling by providing continuity and expertise throughout the project," said Emin Halac, CEO of USA Cabinet Store. "In markets like Annapolis, where older homes present unique spatial challenges, having one professional coordinate every aspect of the renovation helps ensure the space is used efficiently while keeping the design cohesive."

The Annapolis showroom, at 508 Chinquapin Round Rd, Suite A, serves Anne Arundel County communities including Annapolis, Parole, Arnold, Severna Park, Crofton, Davidsonville, Edgewater, Crownsville, Cape St. Claire, Mayo, Shady Side, and West River, as well as homeowners from Kent Island, Stevensville, and parts of Howard and Prince George's counties.

As part of the expanded service model, USA Cabinet Store offers kitchen and bath remodeling services that include complimentary VR 3D design sessions, in-store consultations, and structured project management, available to homeowners planning a renovation at the Annapolis showroom.

The dedicated designer model is already in place at USA Cabinet Store locations in Falls Church, Vienna, McLean, Alexandria, and Cary, North Carolina, and reflects the company's NKBA award-winning design framework, which is being rolled out across all 14 showroom locations nationwide. The company offers bathroom vanity types in inset, framed-overlay, and frameless-full-access styles, working with cabinetry, countertop, and fixture brands including Showplace, Fabuwood, Kohler, and Cambria, among others.

USA Cabinet Store LLC, founded in 2011, has completed more than 1,000 residential renovation projects. The Annapolis location has an average 5.0-star rating on Google. The company operates showrooms across Virginia, Maryland, Georgia, North Carolina, Texas, New Jersey, Missouri, Florida, and Tennessee, combining regional expertise with national resources to deliver remodeling solutions tailored to each market.
