

PSS International Removals Launches Comprehensive Industry Glossary to Simplify Global Relocation Process

July 07, 2026

London, England - July 07, 2026 -

PSS International Removals has introduced a comprehensive glossary designed to demystify the complex terminology associated with international relocations and shipping services. The new resource addresses the challenges faced by individuals and businesses navigating the specialized language of global moving services for the first time.

The international removals glossary provides clear explanations for industry-specific terms that customers frequently encounter during their relocation planning process. Terms such as groupage, Bill of Lading, CBM, and customs clearance often create confusion for those unfamiliar with international shipping procedures. The glossary serves as an educational tool to help clients better understand the various stages and requirements of their international move.

"Moving abroad involves navigating complex logistics and unfamiliar terminology that can make an already

stressful process feel overwhelming," said Liam Witham, Operations Director at PSS International Removals. "By providing clear definitions and explanations of industry terms, we're empowering our customers to make more informed decisions throughout their relocation journey."

The glossary covers terminology related to all aspects of international relocations, including documentation requirements, shipping methods, customs procedures, and valuation processes. Each entry provides practical context to help customers understand not just what terms mean, but how they apply to their specific moving situation.

PSS International Removals developed this resource in response to consistent customer feedback indicating that industry jargon often served as a barrier to understanding service options and making informed choices. The glossary addresses terminology relevant to the company's full range of services, including international removals, shipping, box shipping, baggage shipping, and vehicle transportation.

The resource also covers financial and regulatory terms that customers encounter when planning international moves. Understanding concepts related to customs documentation, shipment protection valuation, and currency exchange services helps clients better prepare for the financial and administrative aspects of their relocation.

Beyond serving as a reference tool, the glossary reflects PSS International Removals' commitment to transparency and customer education. The company recognizes that international relocation represents a significant life event for most customers, and understanding the process reduces anxiety and enables better planning.

The glossary complements PSS International Removals' existing suite of planning tools, including cost calculators and shipping calculators, providing customers with comprehensive resources for their international move preparation.

PSS International Removals specializes in international removal and shipping services to destinations worldwide, including Australia, Canada, Dubai, Hong Kong, India, Malaysia, New Zealand, Qatar, Saudi Arabia, Singapore, South Africa, Thailand, UAE, USA, and various European countries. The company provides complete relocation solutions encompassing packing, loading, shipping, customs clearance, and delivery services. Additional offerings include migration services, customs documentation assistance, excess baggage shipping, furniture shipping, and international container shipping services.
