

Zahnarzt Basel Highlights 365-Day Dental Service for Emergency Care

August 17, 2026

Basel, Basel-City - August 17, 2026 -

A dental practice in Basel, Switzerland, is drawing attention to its year-round emergency dental care, offering treatment every day of the calendar, including weekends and public holidays. The clinic operates 365 days a year and focuses on urgent dental situations that require immediate professional attention.

The practice serves patients seeking an emergency dentist basel who face sudden dental issues such as severe toothaches, broken teeth, lost fillings, and loose or damaged crowns. Its emergency call center remains available almost around the clock, allowing patients to secure timely appointments when unexpected dental problems arise.

The practice maintains an in-house dental laboratory, which allows the team to provide same-day solutions for many dental emergencies rather than requiring patients to wait for external services. This on-site capability supports faster turnaround for repairs and replacements during acute situations.

Located in Basel City near Basel SBB, the clinic emphasizes its accessible position for residents and visitors traveling by public transportation. Patients can view the geo map emergency dentist in basel to locate the practice ahead of an appointment or during an urgent situation.

Beyond emergency care, the clinic offers a broad range of dental services. These include children's dentistry, dental implants, and prophylaxis. The team is also experienced in treating craniomandibular dysfunction, a condition affecting the muscles and joints that connect the jaw to the skull. The practice is equipped to assist children and patients who experience dental anxiety, adapting its approach to individual needs.

The clinic employs a team that includes general dentists, orthodontists, and oral surgeons, and it uses current dental technology to support diagnosis and treatment. This staffing structure allows the practice to address a wide spectrum of dental concerns, from routine preventive care to complex surgical procedures.

Dr. Schultheiss noted that the practice also focuses on guidance for patients unsure how to respond to a dental emergency. "Knowing how to react in the first moments after a dental injury can influence the outcome of treatment," he said. "The practice provides information on common dental emergencies and steps patients can take before reaching the clinic."

The practice continues to serve the Basel region with a combination of scheduled and urgent dental care, maintaining its year-round availability as a central feature of its service model. The location can be accessed directly at <https://maps.app.goo.gl/PykTbudimtCmD5gn7>.

Zahnarzt Basel is a dental practice based in Basel, Switzerland, specializing in emergency dental services and immediate assistance. The practice offers children's dentistry, dental implants, prophylaxis, and treatment for craniomandibular dysfunction. Operating 365 days a year with an in-house dental laboratory, the clinic serves patients throughout the Basel region with a team of general dentists, orthodontists, and oral surgeons.
