Andromeda Aesthetics Med Spa Announces Expanded Summer Availability

July 07, 2026

Moneta, Virginia - July 07, 2026 -
Andromeda Aesthetics, a med spa serving the Smith Mountain Lake region, has announced expanded appointment availability for the summer season at its Moneta location. The announcement covers the practice's current menu of services and the scheduling windows open through the summer months. Current service and scheduling information is maintained on the practice website, operated by Andromeda Aesthetics.

The med spa offers a menu of aesthetic services administered by qualified staff. According to the practice, its offerings include injectable neurotoxin treatments, dermal fillers and lip fillers, chemical peels, and radiofrequency microneedling. The practice also lists laser services, among them laser resurfacing, laser hair removal, laser tattoo removal, and intense pulsed light treatments. Each service is provided by appointment at the Moneta location.

The practice has stated that a range of appointment windows will be open through the summer months to accommodate local scheduling needs. Andromeda Aesthetics is led by aesthetician Rachel Moline, who oversees the practice and its service menu. The practice describes its summer availability as a local

scheduling option for members of the Smith Mountain Lake community, situated within the greater Roanoke area.

According to the practice, appointment times are being scheduled across the summer months, and the current service menu is available for review ahead of any consultation. The announcement is intended as general information about the services the practice offers and when appointments are available, rather than a characterization of any particular service or service experience.

"This announcement is meant to inform people in Moneta and around Smith Mountain Lake about the services we offer and our summer appointment availability," said Rachel Moline, owner of Andromeda Aesthetics. "These services are provided by qualified staff at our Moneta location, and appointment scheduling is handled by our team."

The med spa operates from its location in Moneta, within the Smith Mountain Lake and greater Roanoke area. Consultations are available by appointment, during which staff review the services on the menu and the options a prospective client may wish to consider. According to the practice, consultations are informational and give prospective clients an opportunity to ask questions about the listed services before any appointment is scheduled.

The practice has stated that all listed services are administered by qualified staff at the Moneta location, and that appointment times are recorded through its standard scheduling process. The expanded summer availability reflects the practice's continued operation in the local area.

Andromeda Aesthetics has operated in the Moneta and Smith Mountain Lake region and continues to offer its menu of aesthetic services on a scheduled basis. The practice states that its services are administered by qualified staff and provided in a professional setting, and that the summer schedule is organized to make appointment windows more predictable for area residents during a busy season around the lake.

The practice notes that its service menu and its available appointment windows are subject to seasonal scheduling. General information about the practice and the services it offers, along with current scheduling details, is maintained on the practice website.
