PromoTech Marketing Launches New Website For MN Concrete Edging Company

June 24, 2016

Golden Valley, Minnesota - June 24, 2016 -
PromoTech Marketing, a business in Minneapolis, MN, has worked together with Curb Creations, Inc. to help them develop their website. The new website is now live and fully operational. It should be noted that not only has Curb Creations launched the website and their online marketing campaign, they have also created their social media pages to include that in their overall marketing.

Jeff Mork from PromoTech Marketing says: "When we were contacted by Curb Creations, we knew we could really create something cool. We love working with local businesses in order to help them grow and build their customer database. Curb Creations really needed to have a modern and effective website, and we're so happy that we have been able to help them achieve that."

Curb Creations offers precision concrete landscape edging, as well as various other landscaping services. As such, they are a strongly hands on business. Because of this, they have overlooked their online presence for a long time, something that they needed to change. In having their website designed by PromoTech Marketing, they now have a strong online presence and have already seen an increase in their customer database.

PromoTech Marketing has also taken the opportunity of launching the Curb Creations - Concrete Edging MN social media campaign. Within a short period of time, the company has received over 300 'likes' on their Facebook page. Furthermore, customers are using it as an opportunity to leave reviews about the services they have received. "I would like to take a moment to say 'Thank you'," says Terri E. on the Facebook page. "My husband and I were extremely satisfied with the service provided to us by this company and the crew. It was amazing to us - how once just the start of the area we wanted was marked - the crew was 'at it' - digging, pulling rock back, etc. It was phenomenal how well organized they were and the short time frame in which our project was completed. We love it. Once we finish the landscaping we will send pictures."

People are encouraged to like the Facebook page for further information on the work that Curb Creations can do.
