

Nichole's Cleaning Service Recognized as a Horizon West Magazine Community Honoree

July 15, 2026

Windermere, Florida - July 15, 2026 -

Nichole's Cleaning Service has been recognized as a Horizon West Magazine Community Honoree. The distinction acknowledges the company's contributions and standing within the local area following years of service to residents in West Orange County.

The recognition underscores the importance of trust and relationships in the home services industry. Nichole's Cleaning Service, founded in 2015 by Nichole Devescovi, has built its reputation primarily through referrals, repeat customers, and strong community ties. This approach has supported steady growth while focusing on recurring residential cleaning services for busy families, professionals, and dual-income households.

Community honors from local publications provide meaningful validation in a sector where consumer trust remains a primary factor in selecting in-home service providers. The award highlights how consistent service and personal commitment can foster long-term connections. Nichole's Cleaning Service has participated in local networking and business organizations, further strengthening its presence and visibility in the region.

The company serves residential clients across West Orange County communities, including areas such as Horizon West and Winter Garden. Its emphasis on dependable recurring house cleaning has resonated with households seeking reliable support for home maintenance. This client-focused model has contributed to the business's ability to maintain high levels of satisfaction over time.

"Being recognized by our local community means so much to me because this business was built through relationships and trust. We've always believed that taking care of people inside their homes is personal, and it's incredibly rewarding to know that commitment is being recognized," said Nichole Devescovi, Owner of Nichole's Cleaning Service.

The honor reflects broader trends in local service industries, where reputation and customer experience play central roles in consumer decisions. As households increasingly turn to reviews and personal referrals, third-party recognitions like this one affirm the value placed on established local providers. Nichole's Cleaning Service has prioritized these elements since its founding, resulting in sustained community support.

Active involvement in local business networks has allowed the company to engage directly with residents and other organizations. This participation has reinforced its commitment to the communities it serves and has helped expand awareness of its recurring residential cleaning services. The recognition serves as an example of how dedication to quality and relationships can lead to acknowledgment from within the community itself.

For a woman-owned business operating in a competitive field, such honors carry particular significance. They validate the efforts of the team and the founder's vision of creating a service centered on personal care and dependability. Nichole's Cleaning Service continues to focus on these principles while adapting to the needs of West Orange County families and professionals.

The milestone also emphasizes the role of local publications in highlighting businesses that contribute positively to community life. By recognizing companies like Nichole's Cleaning Service, outlets such as Horizon West Magazine draw attention to the providers that residents rely on for everyday home support. This type of validation strengthens confidence in local service options.

Nichole's Cleaning Service plans to build on this recognition by maintaining its standards of service and community engagement. The honor comes as the company reflects on its growth and the relationships that have defined its first decade of operation.

Nichole's Cleaning Service is a woman-owned business founded in 2015 that specializes in recurring residential cleaning services. The company serves families and professionals throughout West Orange County communities with a focus on dependable home care and long-term relationships.
