

Ryan & Gordy's Glass Serves as Preferred Provider for Auto Glass Repair Among Insurance Companies in Minnesota and Wisconsin

July 17, 2026

HASTINGS, MN - July 17, 2026 -

Ryan & Gordy's Glass has established itself as a trusted partner for auto insurance providers throughout Minnesota and Wisconsin through its consistent handling of auto glass repair claims and commitment to industry standards. The company, operating since 1972, works directly with insurers to facilitate efficient repairs and replacements while meeting the quality and safety requirements that insurance companies prioritize.

Insurance companies often recommend service providers that demonstrate reliability, proper certifications, and streamlined claims processes. Ryan & Gordy's Glass meets these criteria through its Auto Glass Association-certified technicians and membership in the National Glass Association. These affiliations ensure that all work adheres to established protocols for structural integrity and safety compliance, factors that reduce liability concerns for insurers and policyholders alike.

The company addresses a wide range of auto glass repair needs, including rock chip repairs, crack sealing, and full windshield replacements for cars, trucks, recreational vehicles, and heavy equipment. Technicians

utilize premium materials such as Sika adhesives to achieve durable installations that align with manufacturer specifications. For vehicles with advanced driver assistance systems, recalibration services restore sensor and camera functionality following glass work, a capability valued by insurers for maintaining overall vehicle safety ratings.

Mobile service represents another aspect of the company's operations that supports efficient claims resolution. Certified technicians travel to customer locations across the region, including homes, workplaces, or roadside sites, to perform repairs without requiring vehicle transport. This capability minimizes downtime for policyholders while allowing claims to progress smoothly. At shop locations in Hastings and Red Wing, Minnesota, loaner vehicles are available when needed, further accommodating customer needs during the repair period.

Ryan & Gordy's Glass manages the full insurance claims process on behalf of customers. This includes initiating claims, coordinating approvals, handling documentation, and submitting for direct billing where possible. Such direct involvement reduces administrative burdens and helps ensure that covered repairs proceed according to policy terms. Free estimates provide transparency on coverage and options before work begins, supporting informed decisions aligned with insurance guidelines.

Beyond automotive services, the company offers residential and commercial glass solutions, though its reputation in auto glass repair has particularly strengthened relationships within the insurance sector. Residential work encompasses custom shower doors, window replacements, mirrors, patio table tops, fireplace glass, tempered glass, and custom cuts of Plexiglass and Lexan sheets. Commercial projects include storefront replacements and installations designed to limit business interruptions.

Jay Ryan, co-owner of Ryan & Gordy's Glass, said, "Insurance companies look for partners who deliver quality work efficiently and follow proper procedures. Our certifications and experience enable us to meet those expectations consistently in every auto glass repair case."

Ryan added, "By handling claims directly and providing comprehensive services like mobile repair and recalibration, we help make the process straightforward for both insurers and their policyholders."

Customer accounts frequently reference the smooth coordination with insurance providers. One review highlighted how the company managed all aspects of a windshield replacement claim from start to finish. Another noted the convenience of mobile service combined with full insurance support, resulting in a stress-free experience.

With facilities serving communities across Minnesota and Wisconsin, Ryan & Gordy's Glass continues to build on more than five decades of operation as a family-owned business. The emphasis on technician

training, quality materials, and customer-focused processes positions the company as a reliable resource for auto glass repair needs that align with insurance industry standards.

This approach reflects the practical demands of vehicle maintenance and claims management in regions with variable road and weather conditions. Ryan & Gordy's Glass remains dedicated to supporting safe driving through professional services that satisfy both policyholders and their insurance providers.
