

Garage Doors Plus in Minneapolis Announces They Are Authorized Dealers of Lifestyle Screens? Garage Door Screen System

May 09, 2016

May 09, 2016 - PRESSADVANTAGE -

Minneapolis, Minn, May 6, 2016 - Garage Doors Plus, LLC, a garage door service and repair company in Minnesota, announced this month that they are an authorized dealer of Lifestyle Screens - a patented, fully retractable garage screen door system that works in tandem with an existing garage door, and allows homeowners the ability to enjoy their garage space more fully during the summer bug season.

Thomas Rodriguez and Dave Ballinger, owners of Garage Doors Plus, say the screens are the perfect solution for outdoor enthusiasts, car tinkerers and hobbyists who like to work in their garages year round. Adding a Lifestyle Screen lets people get more usable space out of their homes by transforming the garage into a man cave, hobby area, workshop, or gym. In areas where mosquitoes limit outdoor activity during our short summers, the screens are letting people transform their garages into airy, pest-free work and play spaces.?

Framed with a 2" x 2" architectural grade aluminum with a wet painted shell, the Lifestyle Screen runs on maintenance-free tracks mounted directly inside the existing garage door. The spring-loaded counter-balance system makes it effortless to open and close the screen and eliminates the need for an electric opener.

Lifestyle Screens are lightweight and fully retractable within seconds. They are available with or without a retractable passage door for ease of entry and exit into the garage when the screen is down, without needing to retract the entire system. The screens come in three different frame colors (white, brown and sandstone), several heights and widths and have three screen material options to choose from. The fiberglass screen is standard and offers maximum airflow. PVC coated polyester screens are available in white or black, and provide maximum durability and privacy, and are pet resistant. Lifestyle Screens are made in the U.S. and come with a Limited Lifetime warranty.

Just in time for summer and high school graduation party season, Garage Doors Plus is offering \$200 off the

installation of the 16x8? and 16x7? Lifestyle Screens. Learn more about the screens at www.garagedoorsplusllc.com/services/lifestyle-screens or call Garage Doors Plus today at 612-760-7551 for a no-obligation estimate.
