Learning Tree Academy Announces Enrollment for Before and After School Care at Succasunna Location

July 22, 2026

SUCCASUNNA, NJ - July 22, 2026 -

Learning Tree Academy continues to accept enrollment for its before and after school care program at the Succasunna location. The program provides reliable supervision and support for children attending Roxbury Township elementary schools.

The before and after school care offers a consistent bridge between home and school. Morning sessions allow children to start the day in a calm, structured setting before boarding the district bus. Afternoon sessions provide a safe space for homework assistance, snacks, and recreational activities after the school day ends. Bus transportation is coordinated directly with the Roxbury Township School District, making the program convenient for working families.

Children in the program engage in age-appropriate activities that reinforce social skills, responsibility, and learning habits. Staff supervise free play, organized games, and quiet time for completing school assignments. The familiar academy environment helps children transition smoothly between school and care, reducing stress for both students and parents.

The program aligns with the public school calendar and operates during regular academy hours. Experienced teachers maintain small groups to offer individualized support and build positive relationships with each child. This continuity supports academic progress and emotional well-being throughout the school year.

Nataliya Malinovsky, the owner of Learning Tree Academy, shared, "Our before and after school care program gives families confidence knowing their children are in a safe, nurturing environment that complements their school day."

The Succasunna facility serves elementary students from multiple Roxbury Township schools. The academy coordinates with district transportation to ensure reliable drop-off and pickup. Daily routines include nutritious snacks, physical activity, and opportunities for creative expression, helping children unwind after school while preparing for the next day.

Safety protocols at the center include 24/7 video surveillance, a secure entry system, and commercial-grade UV air purification. The Positive Discipline approach guides interactions, teaching respect, problem-solving, cooperation, and personal responsibility. Teachers participate in ongoing professional development to support best practices in school-age care.

Before and after school care at the Succasunna location is specifically available for students attending Roxbury Township elementary schools. Enrollment for before and after school care is available on a rolling basis aligned with the school year. A 10 percent sibling discount applies. Families provide meals and snacks according to nutrition and allergy guidelines.

For all its other early childhood programs, the academy serves families from Succasunna, Roxbury Township, Kenvil, Rockaway, Mine Hill, Mt. Arlington, Randolph, Ledgewood, Denville, Netcong, Mt. Olive Township, Flanders, Wharton, Parsippany, and Dover.

Nataliya Malinovsky continued, "Enrolling in our before and after school program allows children to benefit from consistent routines and supportive care that extend the positive experiences of the school day."

Parent feedback highlights the reliability and caring staff in the program. Reviews note how the structured environment helps children feel secure and supported while accommodating busy family schedules. The academy maintains open communication with families through regular updates on children's experiences and progress.

The before- and after-school care complements the academy's full range of early childhood programs. This integration creates a seamless experience for families with children across different age groups. Teachers adapt activities to meet the needs of school-age participants while fostering independence and a love of

learning, encouraging social interactions and problem-solving skills among peers.

Learning Tree Academy provides early childhood care and education in Morris County. The academy offers infant, toddler, and preschool programs along with before- and after-school care and summer camp options. Programs emphasize play-based learning and whole-child development in a supportive setting, helping children build essential skills for their future.
