Learning Tree Academy Opens Enrollment for Before and After School Care at Wood-Ridge Location

July 22, 2026

WOOD-RIDGE, NJ - July 22, 2026 -

Learning Tree Academy is accepting enrollment for its before and after school care program at the Wood-Ridge location. The program supports children in the universal pre-kindergarten program through its partnership with the Carlstadt School District and is expanding to accommodate additional children from other districts.

Morning care sessions help children begin the day with a calm routine before transitioning to the public school classroom. Afternoon sessions provide supervised time for snacks, homework assistance, recreational play, and quiet relaxation following the school day. Children benefit from the continuity of care in a familiar setting with teachers they already know.

The structured yet flexible schedule supports the development of independence, responsibility, and positive peer interactions, contributing to their overall growth and well-being. Activities are designed to complement the school day while allowing time for physical movement and creative expression.

The before and after school care integrates with the academy's overall approach to early education. This

expansion allows more families to access reliable care options beyond the Carlstadt district. Staff focuses on creating a supportive atmosphere where children can decompress after school and prepare confidently for the next day.

Nataliya Malinovsky, the owner of Learning Tree Academy, said, "The before and after school care program at our Wood-Ridge location helps children maintain a smooth daily rhythm that supports both their academic progress and emotional well-being."

The Wood-Ridge facility serves children from six weeks through preschool in its core programs. Infant care addresses individual needs from six weeks to 18 months. Toddler programs encourage exploration for ages 18 months to three years. Preschool classrooms prepare children ages three to five for kindergarten through focused skill building.

Safety remains central to all operations. The center features 24/7 video surveillance, a secure entry system, and commercial-grade UV air purification systems. The Positive Discipline approach helps children learn respect, problem-solving, cooperation, and personal responsibility.

The academy serves families from Wood-Ridge and nearby communities in Bergen, Hudson, and Passaic Counties through its full range of early childhood programs. Before and after school care is available for students participating in the Carlstadt School District's universal pre-kindergarten program and is expanding to accommodate children from additional districts.

Enrollment for before and after school care follows the academic calendar, with spaces available based on demand. A 10 percent sibling discount is offered. Families provide meals and snacks that align with nutrition and allergy guidelines.

Malinovsky continued, "Families truly appreciate the convenience and reliability of our program, which allows them to focus on work while knowing their children are well cared for in a safe and familiar environment."

Teachers bring experience and ongoing professional development to their roles with school-age children. Regular updates keep families informed about daily activities and their child's experiences. This open communication strengthens the connection between home, school, and the academy.

The program supports families by offering dependable options during the school year. Children maintain friendships and routines while gaining confidence through consistent care. The integrated model helps create educational continuity from preschool into the early school years.

Learning Tree Academy provides early childhood care and education in Wood-Ridge, New Jersey. The

academy offers infant, toddler, and preschool programs, along with before and after school care and summer camp options. Their programs emphasize play-based learning and whole-child development in a safe, supportive, and inclusive setting for all children.
