

Real Clean Recognized in Best of Salt Lake City 2026 for Women-Owned Leadership and Structured Cleaning Standards

August 14, 2026

SALT LAKE CITY, UT - August 14, 2026 -

Real Clean, a women-owned and locally operated cleaning company serving Salt Lake City and the broader Wasatch Front, has been recognized in the Best of Salt Lake City 2026 selections. The acknowledgment highlights the company's professionalized approach to residential and commercial cleaning, built on documented standards, trained crews, and a consistent process that clients can anticipate before a single appointment begins.

The company attributes much of its reliability to a system designed to remove guesswork from every booking. Central to that system is the Real Clean checklist, a detailed outline that specifies what is included in standard cleaning, deep cleaning, and move-out services. By defining tasks room by room, from kitchens and bathrooms to bedrooms and common areas, the company aims to align expectations between clients and crews before work is scheduled.

Real Clean was founded and is led by women who have shaped the operation around structure, accountability, and repeatable results. Every crew member is licensed, insured, background-checked, and vetted before entering a client's home or workplace. Staff members follow documented standards and quality-control reviews intended to keep the experience consistent from one visit to the next, whether the assignment is a recurring home service or a scheduled office cleaning.

"Consistency is what clients remember," said Jazz Bader from Real Clean. "A cleaning company earns trust by showing up on time, following the same standards each visit, and being clear about what is included. The recognition reflects years of building a process that treats reliability as the product itself."

The company reports more than ten years of experience in the cleaning industry and has served over 2,000 clients across Salt Lake City, Bountiful, Provo, Lehi, and Vineyard. Its scheduling process is designed for predictability, with defined service windows and documented workflows that help crews arrive prepared and complete assignments to a stated scope.

Real Clean offers standard cleaning, deep cleaning, move in and move out cleaning, home and apartment cleaning, and post-construction cleaning for residential clients. Commercial services include office cleaning and janitorial maintenance tailored to the needs of local businesses. Certain detailed tasks, such as cleaning the inside of an oven or refrigerator, are treated as add-ons and requested during booking so that pricing reflects the actual work performed.

"Our teams are trained to work from the same checklist every time," Bader added. "That structure is what allows a growing crew to deliver the same result across many different homes and offices throughout the Wasatch Front."

The company uses eco-friendly, non-toxic products and professional equipment across its service lines. Quality-control measures and reviewable standards form the backbone of an operation the company positions as a dependable option for homes, offices, and specialty cleaning needs throughout the region.

Real Clean is a professional cleaning company based in Salt Lake City, Utah, serving communities across the Wasatch Front. The women-owned business provides residential and commercial cleaning services supported by trained, background-checked staff and documented standards.
