Will Polley Search Engine Marketing, which is based in Sutton in Ashfield, United Kingdom, is proud to announce that it is expanding its SEO consulting services. It has now made its services available in Mansfield in Nottinghamshire as well. Businesses in that local area may request for their free website health check to find out what the company can do for them.

Will Polley himself says: "I have worked in the field of SEO for a long time, which provides me with expertise in this area. Having worked across Nottingham for quite some time, I feel I am ready to branch out into other geographical areas as well, starting with Mansfield."

The Will Polley SEO consultancy service that has been made available to Mansfield businesses places a particular emphasis on on-page optimization of a website. This sets the service apart from those of other services, which often use search engine optimization as a blanket term for a huge number of different services. While Will Polley does offer other services as part of full SEO campaigns, he places a stronger focus on on-page optimization.

The East Midlands is a very competitive part of the UK for small businesses and they need as much of an advantage as possible.
